STATEMENTS

Remarks of spokesman of Islamic Emirate regarding the baseless assertions of Karzai in Japan

20 Sya'ban 1433 - 10 July 2012

On the 27th of the past month, an academic analytical conference regarding Afghanistan was convened in Doshisha University, Kyoto, Japan to which representatives of Islamic Emirate were invited and then a delegation dispatched so that the stance of Islamic Emirate can be clarified. However even at that time, some media outlets falsely reported that negotiations took place between the representative of Islamic Emirate and that of the stooge Kabul administration during

which they agreed upon creating a joint commission and the exact claim was once again made by Karzai the other day.

We dismissed those reports and rumors even at that time and once again reject the baseless assertions of Karzai with the strongest of words. It is true that the representative of Islamic Emirate as well as those of the Kabul regime were present at the analytical gathering at a university in Japan however the representative of Islamic Emirate has neither talked to those of the Kabul administration and neither did they agree upon creating a joint commission in the future to solve the issues of Afghanistan. The mentioned assertion is nothing more than another wave of enemy propaganda and such irresponsible claims are in it self an acknowledgment of their frail and weak state.

We once again strongly reject such claims reported by some malicious media outlets as well as by some officials of the stooge Kabul regime.

Remarks of spokesman of Islamic Emirate regarding Michael Semple's alleged interview with 'Mawlawi'

24 Sya'ban 1433 - 14 July 2012

A number of western media outlets published a fatuous interview a few days ago with an alleged anonymous member of Islamic Emirate (Mawlawi). In it the said person (Mawlawi) basically states that he doesn't believe in the divine help of Allah and that the Mujahideen surely cannot defeat the enemy.

Before everything else, the Islamic Emirate of Afghanistan categorically refutes this interview and deems it as nothing more than a shameful propaganda ploy of the deceitful flailing enemy. We have repeatedly demonstrated to our enemies for the past decade that the Mujahideen can do what could have never been imagined. Our struggle is not just a fight but a Jihad for a lofty sacred goal which has never been overcome in our fourteen hundred year history. If we keep steadfast onto our sacred goal then it is not far that we shall reach our destination. Our enemy should not comfort its moral lacking troops which such idle imaginary interviews. We have been practically tested for the past ten years and, Allah willing, can attain whatever that Allah has written for us. Our Mujahideen are as sure of their victory as our enemy of its impending defeat.

The Islamic Emirate has no official or person in its ranks under the title 'Mawlawi'. Anyone even slightly aware of Afghan dialect clearly knows that 'Mawlawi' can never be a name rather 'Mawlawi' is a common phrase with which any Mullah can be called without any distinction.

Now that the international alliance headed by America is facing an ignominious and disgraceful defeat, it is trying to hide it with such ridiculous apoloques. Sometimes they introduce a vegetable seller as a high ranking official of Islamic Emirate and try to solve the Afghan issue with him and sometimes an anonymous 'Mawlawi' as its important member and then publish such nonsense.

The beaten and moral lacking enemy must have also lost its mental stability for them to drivel such absurdity therefore the international media, in order to maintain in journalistic reputation, should avoid publishing such silliness of the mentally insane.

The Cultural Commission of Islamic Emirate once again calls on all the media outlets that any material related to the Islamic Emirate can only get its validity after the verification of its known spokespersons. Without their verification, any and all statements are the personal views of the speaker and are in no way related to the Islamic Emirate.

Reaction of spokesman of Islamic Emirate regarding the death penalty handed out to Afghan warrior Abdul Suboor

28 Sya'ban 1433 - 18 July 2012

Abdul Sauboor is a valiant Afghan Mujahid and for the freedom, independence and establishment of Shariah on his own mother land, he opened fire on French invaders in Kapisa province on 20th January 2012 while they have no right to immunity in our country. The champion killed and wounded several French invaders in the heroic attack which shall forever be decorated in the history of this nation. If such an act is considered a 'crime' then surely Wazir Muhammad Akbar Khan was the biggest criminal!! who killed McNaughten to achieve the independence and freedom of his country.

The Islamic Emirate commends this gallant act of the knight Abdul Sauboor who sent several French to the pits of hellfire a while back in Kapisa. And those stooge faces and persons who passed such irresponsible judgments regarding this hero only to please their masters are positioning themselves in complete opposition to Islamic principles and Afghan history and are selling out a hero of this nation.

The Islamic Emirate warns and reminds these dollar worshippers that all irresponsible judgments and actions passed against the 'Ghazi' Abdul Suboor will carry with itself a hefty reaction. All those so called judges and lawyers involved in this will be personally targeted and every vulgarity against this hero will be avenged. The cowardly stooges should realize that their masters are on the run and can no longer provide them with security and a safe life while the judgment of our nation against them, in accordance with Islamic principles, shall be that which befits their national treason and subversion.

The Islamic Emirate comforts the Afghan 'Ghazi' Abdul Suboor and other champions like him that all of their Mujahideen brothers will stand behind them and shall quickly and effectively avenge all cruel actions against them, Allah willing. The Islamic Emirate advises these heroic Mujahideen to have patience, forbearance and perseverance and tells them to completely rely on Allah and be at ease with what Allah Almighty has written in their affair. This will, Allah willing, be better for them. They should hope for a brighter afterlife, pray to Allah and aspire for al-Firdows. They have championed the religion of Allah and Allah immensely rewards and beautifies the end and afterlife of those who champion his religion. They should rest assured that the fruits of their sacrifices have ripened and the invaders are on the verge of fleeing. The day is not far that an independent Islamic government shall be established due to the blessings of their sacrifices.

Statement of Islamic Emirate regarding the bloody tragedy of the Muslims of Burma

01 Ramadan 1433 - 20 July 2012

The Muslims of Burma have been facing such oppression and savagery for the past two months never previously witnessed in the history of mankind.

Mercilessly burning children, women and men like roasting sheep on fire is not only against every known law but something no man with any conscience can ever accept but unfortunately the Muslims of Burma are targets of such a gross crime. Not only that, but they are also being expelled from their lands, forcefully ejected from their homes, their wealth is being usurped! and their honor looted while the whole world turns a blind eye to their plight.

The Islamic Emirate of Afghanistan, besides considering this crime a black scar on the history of mankind, calls on the government of Burma to immediately put a stop to this savagery and barbarism and halt such heart rending historical violations against humans and humanity. They should realize that this is not only a crime against the Muslims of Burma but against all humankind and especially an unforgivable crime against the entire Muslim world.

Alongside this, the Islamic Emirate calls on the international community, especially all human right organizations and groups and all the governments and nations of the world particularly the governments and people of the Islamic world and primarily the Arab nations to take immediate actions against this tragedy. It is very deploring that thousands of humans, mostly women and children, are savagely burnt publicly without anyone taking any notice.

The Islamic Emirate also calls on all international media outlets especially Al-Jazeera network to fulfill its moral and humanitarian obligation by exposing this barbarism and informing the people about its realities.

Similarly, the international educational centers especially those of the Islamic community, the scholars, politicians, intellectuals, writers and in fact all people should fulfill their obligations against this cruelty and terror on un-proportional levels.

The Islamic Emirate of Afghanistan

Statement of Islamic Emirate regarding the destruction of infrastructure by NATO

08 Ramadan 1433 - 27 July 2012

The wrapping up of occupation is indeed a proud moment for the Afghans. It is hoped that our beloved country frees itself from the accursed clutches of this invasion. There should be no doubt that none of this would be possible if not for the help of Allah Almighty and the innumerable sacrifices of this proud nation.

Although the withdrawal of the invaders is a positive step however the destruction of infrastructure is absolutely irrational. The Afghans hold due right of these installations because they are built on the land of the Afghans and with money collected in their name.

Firstly the occupiers invaded the Afghan nation in violation of all established rules, constructed military installations without the consent of its people and now they are being destroyed in yet another act of violation. The Islamic Emirate of Afghanistan, besides condemning this act, calls on the invaders and their allies to withhold from breaching any further rights of the Afghans. Leaving these installations is very beneficial for the persecuted Afghan people. It can clearly be seen from this that the occupiers do not care about the interests of the Afghans. They shouted empty slogans of reconstruction but are now openly carrying out destruction of facilities built with the money of the Afghan people. Is this re-construction

of re-destruction! It is a common rule that money be spent on development however they are spending millions on destruction of this country!! which if were instead spent on reconstruction, would eliminate a lot of the problems of the people. They have always chosen destruction for other nations. All they ever do is annihilation. They came in with destruction and are now leaving with destruction. The stooge Kabul administration, which toiled in the lap of the invaders for the past decade and is still at it, is so worthless to them that they won't even give them a few outposts. Is this the repayment for ten year slavery?

Even the stooge Kabul administration has to now realize that their masters were neither beneficial for them nor for the nation. They should now understand the realities, recognize the nation's friend from foe, instead of still standing behind the occupiers and killing its own people, it should help its people in kicking them out. Whatever you did is past, now is high time you focused on the future of this country and its people.

Arab movements and their effects on the world, region and Afghanistan

17 Sya'ban 1433 - 07 July 2012

At the end of 2010 and during the years 2011–2012 the Arab world was the witness of demonstrations and people uprising. As a result governments were toppled down and the rulers fled away, killed or waiting behind the bars for their final judgments. Some of them are still struggling for their survival and are heeding towards their confirmed notoriety. On December 17, 2010 in the 'Sede bo Zaid' city a young man 'Mohammad bo Azizi' put himself on fire because of the cruelty of police. The news spread like the jungle fire in the people and on the following day, Friday (18-12-2010) demonstration started against 'Zainul Abiden' and his autocratic government. In a short time the uprising reached its peak. On 14.01.2010 the government was dismissed and everything was changed within 17 days. The oppressed people of yesterday became the rulers by the grace of Allah Almighty and by their own struggle. On October 23, 2011 the people of Tunisia by free voting elected the 'Islamic Movement Party' and they made a coalition government under Mr. Hamadi Aljabali for the better confidence of the people.

The uprising in Tunisia and its success gave inspirational waves to Arab countries and to the whole world and as a result public uprising started in so many other countries. For example the uprising in Egypt which started on 25th January 2011 and within the short span of 18 days put the full stop to the government of Hosni Mubarak. The changes started and at the end, on June 24, 2012 the Egyptian people through free election laid the foundation stone of the Islamic government under the leadership of Mohammad Mursi.

Just like the Tunisians and Egyptians the Muslim people of Libya rose against their ruler. The unrest started on February 17, 2011. But this uprising was turned into an armed resistance very soon because of oppressions of government forces which result into a lot of killing and destruction. On August 21, 2011 the capital city 'Tripoli' fell to the hands of the resistance forces. At last on 20th October 2011 the final stronghold of Gaddafi 'Sirt' came under the control of Mujahedeen. Now the Libyan government is serving the Muslim people of Libya under the 'National Transitional Council' headed by Mustafa Abdul Jalil.

The Syrian Muslim also started peaceful demonstrations just like others on 15th March 2011. Regretfully the tyrant government started to crush this public uprising by force and violence and martyred tens of innocent people including women and children. Hundreds of thousands were compelled to flee. The atrocities are going on for the last 16 months. We pray to Allah Almighty that the sufferings of the Syrian and Afghan people come to an end. Amen!

The sparks of the Arab spring spread from Yemen, Syria and Arab peninsula to far west and America. Many governments started reformations in the fear of public uprising. Now it is quite clear that the masses have the power to bring revolutions, toppled down the corrupt governments and give chance to righteous people to serve the nations.

The repercussions of the positive changes in the Arab world can be felt in Afghanistan and in the region as it is felt generally in the whole world. The main of the Arab refugees to Afghanistan was that they were not safe in their own countries. They were imprisoned, martyred or compelled to migrate by their authorities. Therefore a lot of Arabs migrated to other countries of the world. Now the situation is changed in the Arab world and a good chance is provided to the migrated Arab people. Now they will return back to their respective countries. Not only peace and stability is restored in their countries but the opportunities of work and life are also available.

Thousands of the imprisoned people including important personalities are released with these revolutions. Efforts are on the way to release the remaining people. The newly elected president of Egypt even says about the efforts of the release of Sheikh Abdul Rahman.

Now the spiteful propaganda of the enemy has nothing to do the realities to say there are Arab Mujahedeen fighting inside Afghanistan and these Mujahedeen will continue to utilize Afghanistan and the region as their stronghold; because they do not need to come any more to Afghanistan.

The Afghan do not accept slavery whatever good name it may be given

22 Sya'ban 1433 - 12 July 2012

Last Saturday (July 7, 2012) an urgent message of Obama reached Kabul which called Afghanistan it allied country outside NATO. Mrs. Clinton was assigned the duty to visit Kabul one day before the Tokyo conference for Afghanistan to give assurance to the stooges in Kabul who are already embarrassed by 'Al-Farooq' operation; and also to inspire their partners in Tokyo

to provide even more funds for their military expenditure so that they could leave Afghanistan while saving their own economic bankruptcy. Similarly they want to assure the American people that the Afghan issue is in the final stages of its solutions.

In the present state the most important for Obama is to set a strong mechanism to create a peaceful atmosphere for the evacuation of his troops and their military equipments. They need money for it because they are short of it. We do not think that the Afghan nation might get even a penny from the huge amount in billions only orally promised in the Tokyo conference. Only a small number of countries have promised conditionally. The Americans have given the reference on the closed shop i.e. its Congress. The British will think later. The previous experiences have proved that not only the fund collected by the name of Afghanistan but also the internal budget of Afghanistan is used for the American interests.

Undoubtedly Afghanistan is occupied by the American. Hundreds of thousands savage foreign troops are here. External jets and planes are flying in our air. In our Presidential palace Afghans are checked by American detective dogs. In our ministries and military barracks foreigners are in power. On our roads and highways foreigners have the priority. Keeping these facts in mind no reasonable logic can accept someone to be called the

president and then to sign strategic treaty and make alliance!!

The Americans and their criminal partners are martyring everyday dozens of Afghans and making them orphans, indiscriminately bombing the people and villages, their troops enter the houses, committing crimes, creating divisions and differences among the peoples, calling one group the enemy of Afghan nation and arousing others against it, how can these kind of criminals be the ally of Afghans? Does an allied country deal in this way with another ally?

Occupation is occupation whether it is by the name of friendship or strategic treaty. The occupiers are occupiers whether are called allied are partners. A slave is a slave whether he is given the good name president, minister or general. A colocynth is a colocynth and its bitterness remains the same if it is hundred time a watermelon.

If Obama is asked what would you call if this kind of vagrants comes to your country and loot and plunder everything? Would you call someone a president if he is appointed by externals? Would you call the treaty a strategic one signed by this kind of puppet president?

Obama and his friends must have this announcement after a good deal of consideration because they know what kind of dangers it has behind it. They want to sacrifice us for their ordinary interests. They are fully aware about the sensitivity of the region. They want to bring us in permanent enmity with the regional countries just for the sake of their vested interests approved by a few number of puppets. Actually they are fleeing, therefore sometime they talk about the influence on India and Pakistan; sometime they talk about the permanent bases and strategic treaties.

The Islamic Emirate of Afghanistan fully opposes this new American announcement and considers it an aggression over the Islamic and national identity of Afghanistan and strongly condemns and rejects these black treaties with the baseless puppet regime of Karzai, which have no legal or moral status.

To penalize war criminal 'Dostam' will be a great step towards insuring social justice!

01 Ramadan 1433 - 20 July 2012 08:55

Those who oppress the aggrieved, verily sees admonitory punishment for their oppression. Taken from the Pharaoh of the sons of Israel to the Pharaoh (Abu Jihl-the father of ignorance) all of them have seen different retributions for their cruelties. Allah has taken severe revenge on them all the times and has healed the hearts the aggrieved ones by destroying the tyrants and this sequence is going on likewise.

Every member of our exasperated nation knows Dostam as a despotic, cruel, tyrant, cannibal, man-killer and the murderer of Afghans. He was not only a stooge in the hands of foreigners during the then Soviet Union tyrannical invasion but also martyred a great number of innocent Afghans to defend the invaders. He made them defective and wounded. He killed a large number of youth, widowed the woman and orphaned the children. He is the ruthless beast who was heading the special barbaric militia, who was internationally well known for their robbery, looting and massacre. They knew no Afghan honor or reputation nor any zeal, courage or manliness. They entered the homes of Afghans just like the present savage Americans; used to kill the Afghan infants in their cradles ruthlessly!!!

When the communist regime was collapsed in the capital city Kabul by the grace of Allah Almighty, it was Dostam who started making military alliances for the destruction of this beautiful city. He stationed his militias in residential areas. One day his tanks and cannons were targeting the south and the day he used to shell heavily the northern part of the city. Kabul was destroyed, the inhabitants were either martyred or compelled to flee. But Dostam is still free hand in that city and is a high ranking official, supported by the invaders.

During the reign of the Islamic Emirate of Afghanistan he was on the verge of being drawn to justice and panelized, regretfully he fled away by the support of some regional agencies. This murderer of the Afghans came once again in power in northern Afghanistan in 2001 with the help of the American invasion; so that he could serve the enemies of our beloved country, religion and our national chastity.

The massacre of 'Gala Jangi' in November 2001, the treachery with the thousands Mujahedeen of the Islamic Emirate and, the torture, hunger and thirst, their detention in containers and their shelling from outside are the crimes of Dostam which have equals in the world history.

The CLAIMERS of the human rights still arrange secret meetings with this criminal and using him for the dissection of the country and the stooge administration of Kabul is still introducing him as a commander in-chief.

It is worth mentioning that Dostam cannot represent the Mujahid and courageous Uzbek nation. The courageous Uzbek nation has always struggled steadfastly against the foreign invaders and is still resisting the current occupiers. The Afghan nation knows the Uzbeks as a brave, Muslim and Mujahid nationality. Specially the Islamic Emirate appreciates and respects their sacrifices.

We ask the honorable and courageous national figures, civic societies, human rights organizations and the regional governments to assist us in bringing this war criminal to justice so that on one hand the way is paved for overall peace and stability in the beloved homeland and on the other hand it should be a lesson or warning for other criminals and they should be discouraged to vex their masses. To bring this violator of human right will not only be a great step towards the insurance of social justice but it will also revive the expectations and desires of our oppressed nation and they will be able to breathe in comfort.

((And those who have committed cruelty will know quickly to where they shall return.))

Attacks on Konar is an action against all the norms and principals

08 Ramadan 1433 - 27 July 2012

It has been ten years that the invaders have imposed by the force of cannons and tanks a mafia and over all corrupt administration on the shoulders of the oppressed Afghan nation. The corruption and treachery of this administration has been admitted internationally to the level that now the homeland of courageous and valiant people has been graded as second most corrupt in the world. Although these few stooges of mafia can in no way represent the brave Afghan nation but anyhow generally they are known as Afghans.

This administration is not only involved in corruption but also heedless of the nation and the country because of its incapability and inefficiency. For some time there have been sporadic rocket attacks from the neighboring country Pakistan on Konar province. Regretfully these attacks results in the martyrdom and wounds of the civilian people and also in the loss of property. But the inefficient and useless administration is incapable to save someone from this anguish.

These attacks have no legal justification. They are contrary to all the Islamic and International norms and against the rules and rights of good neighborhood. These attacks should be immediately stopped under whatever name and for whatever reason they may have been; because the loss of the common people is detrimental for everyone.

Pakistan has not only an extended border with Afghanistan but they also have common historical, cultural, social, intellectual relations and religious beliefs. The Pakistani nation has a very unforgettable past of its cordial relation with the Afghan refugees. The Afghan nation appreciates it. Efforts should be made to establish the feelings of sympathy and bilateral cordial relation between these two neighbors instead of hatred and disgust.

Whether Pakistan or any other country would swallow any assault against its nation? Whether it would remain silent? No one can tolerate any kind of attack or invasion against its people or homeland. The Afghan people have rendered historical sacrifices for the last thirty years; millions are martyred, millions are disabled, millions are migrated, children were orphaned, women were widowed, cities and villages were destroyed, the whole infrastructure was shattered. The Afghan people suffered all these hardships just to safeguard their sovereignty and to establish a pure Islamic system according to their beliefs. How can it endure anyone's aggression now? The world knows that Afghans have never remained silent against any belligerence.

The Pakistani government should take decisive steps to stop this disaster. The people, organizations, civil societies, politicians, scholars, writers, media forums, university teachers and students, all should force the government to take immediate measures to end this violent behavior. They should not allow a few people to create hatred and antipathy between the two brotherly historical neighboring countries. Governments change from time to time; but people bear the liability against themselves and their countries. Therefore it is the responsibility of every nation to prevent those in power from actions which create troubles for the people.
